

## **Request for Proposal Information**

### **Personalized Learning Resource for K-8 ELA and 6-8 Science and Social Studies**

#### **GENERAL DESCRIPTION AND PURPOSE**

The district is currently seeking a qualified offeror to provide a personalized learning platform with comprehensive K-8 curriculum, real-time diagnostic, personalized guidance, and actionable analytics to provide teachers a resource for differentiated instruction and practice for all students that can support in-person and remote learning.

This program must include the following components for 4,400 students encompassing K-8 ELA as well as Science and Social Studies for grades 6-8:

- A web-based delivery platform supported on smart phones, tablets, Chromebooks, and computers
- Full alignment to the TN State Academic Standards with skills pathways that support standards attainment and progression
- 8,500+ skills aligned lessons and activities across grade levels and content areas that support standards progression
- Real-time diagnostic to assess student knowledge, understanding, and present levels of performance
- Personalized action plan for each learner that links to the skills that will help fill knowledge gaps and build on current understanding
- Ability for teachers to independently assign student practice sessions and activities
- Analytics and reporting system with reports that detail classroom performance, growth, and student performance. Analytics should also detail student activity, practice session information, and state-assessment readiness
- School and home access for students
- Auto-rostering through Clever and Google SSO included
- Professional Development and support for all teachers and users included
- Unlimited instructor accounts included

**Total student numbers: K-5 ELA only – 2,675; 6-8 ELA, Science and SS – 1,725**
